

WT3520 Wearable Armband Glove Scanner

Rotating Armbands - Enable Viewing in Landscape and Portrait Modes

Equipped with a 360° rotatable mechanism, these armbands offer users the convenience of effortlessly switching their mobile devices between landscape and portrait orientations. This flexibility empowers users to tailor their viewing experience to suit their tasks, content, or individual preferences. Whether opting for a wider display in landscape mode or a more ergonomic setup in portrait mode, users can easily customize their viewing orientation for enhanced comfort and usability.

Versatile Armband AB2200 - Customize Width Using Side Screws to Secure Mobile Devices of Different Sizes

The versatile AB2200 armband is a practical solution for securing mobile devices of various sizes. Its innovative design allows users to customize the width by adjusting the side screws, ensuring a snug and secure fit for mobile terminals in different sizes. This adaptability makes the AB2200 armband a convenient accessory for individuals who use different devices or frequently switch between devices, offering peace of mind and stability during activities and on the go.

Customizable Arm Strap - Accommodates a Range of Arm Circumferences

Generalscan armbands boast adjustable straps that cater to a multitude of arm sizes, ensuring a personalized and comfortable fit for users of all dimensions. By adjusting the strap, individuals with varying arm thicknesses can enjoy a tailored wearing experience. This adaptable construction not only broadens their utility but also amplifies their comfort level, rendering them suitable for a diverse user base seeking a flexible and snug armband solution.

Combat Germ Transmission through Effortlessly Swappable Comfortable Glove

Given that the glove is the sole component of this wearable device that comes into contact with the skin, we have introduced a two-piece design. This design effectively separates the glove from the scanner body, allowing for individual gloves for each worker. Moreover, the glove material is soft to ensure a comfortable and snug fit.
