GS R3520 Handheld Barcode Scanner

All day comfort that workers can count on

The ergonomic designed grip provides maximum comfort, even in the heavy duty scanning environments, which reduced greatly user fatigue and increased productivity.

The Flexgrip is easy to assemble and clean

It is very easy to assemble on the scanner, just press and release the latch it will be fixed. Because of the small size, it is aslo very easy to clean.

Triggers built for intensive scanning

The triggers are rated for millions of pressing — instead of the typical few hundred thousand trigger presses. It is obvious that the frequency of replacing triggers getting lower, and also the cost.

Scan engine, Zebra SE2707

High-quality scanning for printed and mobile barcodes. It captures virtually any barcode printed on paper labels or displayed on mobile phones. With bright, rectangular illumination field and LED aiming spot, users instantly know if they are aiming at the right spot for exceptional ease of use.

NFC paring saves at least half of the connection time

Using the NFC makes the Bluetooth connection more convenient and faster. User can simply tap the scanner with any NFC-enabled devices. No need to open the bluetooth settings to identify and select the device.

Maximum replaceable parts bring minimize downtime

The removable and swappable sanner body and battery minimize the entire time of reassembly process. Furthermore, the one-second swappable battery makes sure scanners have virtually no downtime. There is no need to worry about dead battery to influence your daily working any more.
