# **GS R1523 Thumbutton Barcode Scanner**

# Warm White Illumination along with Red Cross Laser Aiming Enhanced Accuracy, Speed, and User Comfort

Warm white illumination reduces glare and reflection, making barcodes easier to read in bright or highly reflective environments. Red cross laser ensures precise targeting even in low-light or high-contrast conditions. In addition, cross laser provides a clear visual guide, helping users accurately align the scanner with the barcode, reducing misalignment errors and minimizes the need for multiple scan attemps. The combination of warm white illumination and red cross laser enhance the readability of low-contrast, faded, or damaged barcodes. What's important is the warm lighting is softer on the eyes, reducing eye strain for workers performing repetitive scanning tasks.

# Versatile wearable options

With Thumbutton, workers can wear the scanner around their neck, on a belt, or hold it in hand—easily switching

between left and right hand as needed. These versatile carrying options ensure the scanner is always within reach, making it perfect for tasks that require frequent but intermittent scanning, such as in retail or event management. Worn the scanner around the neck by a lanyard, it hangs around the neck securely when not scanning, keeping hands free for other tasks. This convenient access makes it an ideal solution for occasional scanning, ensuring efficiency and ease of use throughout the workday.

# Maximum ROI with multiple replaceable parts

The removable and swappable battery and trigger assemblies and retractable lanyard compatible with all the Generalscan scanner bodies, maximizing return on investment. This seamless interchangeability enhances flexibility and maximizes your return on investment, ensuring long-term efficiency and cost-effectiveness.

# **Application Fields**

R1523 can be widely used in manufacturing, warehousing, logistics, retail and express transportation, and has incomparable advantages in improv-ing production efficiency and accuracy. In logistics, warehousing and other scenarios where fast scanning is required, precise cross aiming helps to improve scanning success rates, even when the target barcode is in motion.

## **PRODUCT SPECIFICATION**

Wearable Barcode Scanner GS R1523

#### PHYSICAL PARAMETER

Dimensions	66.5mm(L) × 34.7mm(W) × 25.2mm(D)	
Weight	27.0g(Scanner body)	
Battery Capacity	600mAh	
Charging	5V1A	
Charging Time	120min	
Battery Life	18.5h(scan once in 5 seconds)	
Notification	LED, Buzzer, Vibration	

USB	
USB Interface	USB Type-C
USB Protocol	USB HID Keyboard, USB VCP (Virtual Serial Port)
Multilingual Keyboards	USB HID mode supports multilingual keyboards

#### **USER ENVIRONMENT**

Ambient Light	Max 100000lux (direct sunlight)	
Operating Temperature	-20°C~50°C	
Storage Temperature	-40°C~70°C	
Humidity	5% - 95% non-condensing	
Drop Spec.	Multiple 4.9ft./1.5M drops to concrete	
Tumble Spec.	Scanner body withstands 20,000 times from 3.3ft./1M
